

RIBER

Press release

Repeat commercial success in Asia

Bezons, November 6, 2017 - 5:45 pm - RIBER, a global market leader for semiconductor industry equipment, has received a new multi-million euros order in Asia for the supply of evaporators to the display industry.

These evaporators will be used in thin film deposition equipment to manufacture new technology displays. This third order follows previous orders received in October 2016 and August 2017 from a RIBER's equipment manufacturer customer.

This new order will be delivered in the first half of 2018.

About RIBER:

Riber designs and produces molecular beam epitaxy (MBE) systems as well as evaporation sources and cells for the semiconductor industry. This high-tech equipment is essential for the manufacturing of compound semiconductor materials and new materials that are used in numerous consumer applications, from new information technologies to OLED flat screens and next-generation solar cells.

Riber is listed on Euronext Paris (Compartment "C") and is part of the CAC Small, CAC Technology and CAC T. HARD. & EQ indices. Riber is eligible for SME share-based savings schemes.
