

RIBER

Press release

RIBER received a repeat order for evaporators for the photovoltaic industry

Bezons, March 29, 2018 - 5:45 pm - RIBER, a global market leader for semiconductor industry equipment, has received a new order for over one million euros from Singulus Technologies, Germany, a global leader in the development of innovative industrial solutions for solar industry.

RIBER will provide to Singulus Technologies its Selenium linear evaporators, the "Jet 40K Selenium", which are used for the production of thin-film solar cells in CIGS technology. This new order follows the order received in October 2016 by the same customer.

This new order will be delivered in the second half of 2018.

About RIBER:

Riber designs and produces molecular beam epitaxy (MBE) systems as well as evaporation sources and cells for the semiconductor industry. This high-tech equipment is essential for the manufacturing of compound semiconductor materials and new materials that are used in numerous consumer applications, from new information technologies to OLED flat screens and next-generation solar cells.

Riber is listed on Euronext Paris (Compartment "C") and is part of the CAC Small, CAC Technology and CAC T. HARD. & EQ indices. Riber is eligible for SME share-based savings schemes.
