Order for a MBE research system in Europe

Bezons, April 24, 2017 – 5:45 pm - RIBER, a global market leader for semiconductor industry equipment, is announcing the order for a MBE research system in Europe.

RIBER has received an order for a MBE research system intended for the passivation development of high power lasers.

This order will be delivered in 2018.

About RIBER:

Riber designs and produces molecular beam epitaxy (MBE) systems as well as evaporation sources and cells for the semiconductor industry. This high-tech equipment is essential for the manufacturing of compound semiconductor materials and new materials that are used in numerous consumer applications, from new information technologies to OLED flat screens and next-generation solar cells.

Riber is listed on Euronext Paris (Compartment "C") and is part of the CAC Small, CAC Technology and CAC T. HARD. & EQ indices. Riber is eligible for SME share-based savings schemes.
